

## **ways communic8 can save your company money**

1. Free calls between your offices
2. Savings are inherent in our VoIP network as there's no heavy hardware investment to be made and the system is completely scalable
3. Communic8 gives you per second billing with no minimum connection costs. You'll also find international calls to be cheaper than traditional telephony providers too
4. Most upgrades are free as they are usually software-based so there's no need for an engineer to visit your site
5. There is no monthly or per-call fee for the personalised conference calls service
6. There is no need to pay for ISDN 30 lines with communic8 and you don't need structure cabling to receive the service
7. If you have an existing digital telephone system we can simply install a gateway device to port to our SIP system giving you you with free multi-site calling immediately. If your existing handsets are from a leading manufacturer that we can support, you can keep them too
8. We give you free calls to other communic8 customers and partner network – how's that for community partnership?!
